ABOUT COMPANY

Arimas Group is a quality conscious armored vehicle manufacturer with over 5 years of experience specializing in the fields of design, engineering, prototyping and manu-facturing of armored commercial and tactical vehicles.

We have grown substantially over the years and have become one of the most technologically advanced armored vehicle manufacturers in the world.

Arimas Group core competency is the ability to engineer and design vehicle armoring solutions providing optimal survivability and reliability, while maintaining superior driving dynamics and performance.

WHAT WE DO?

We believe in maximizing quality and minimizing lead time through vertical integration of the armored vehicle production process. This sets us apart from competitors as we are able to eliminate production errors, guarantee precision fitment, minimize lead times and deliver 100% satisfaction through tighter management and control of the entire process.

OUR TEAM

Our dedicated teams of highly skilled fabricators and upholsterers are able to custom fabricate a wide range of vehicle specific features and accessories. Some of these include custom built highly durable door panels for any vehicle model, heavy duty steel roof racks, rear and side door steps, roll cages, quick release spare tire mechanisms, a wide variety of seats, interior ambient lighting and much more!
